

# VIVA Healthy Life

Second Quarter 2018

350 Poularino Ave,  
Costa Mesa, CA 92626

## Designing Your Health Plan – The VIVA Way

**A**s you progress through the days of winter into spring, your body makes its own adjustments along with the seasons, working very hard to keep you in healthy balance moment to moment. Every cell works in synchronic tandem with the nutrients and fluids you ingest to perform their life-preserving functions. Without a strong, reliable nutrition and nutraceutical supplement health plan, you could be depriving your body of the vital assistance it needs...putting your body at a disadvantage and denying yourself amazing anti-aging, longevity- promoting benefits. This isn't a new concept for our VIVA family, it has been one of the most important messages passed from member to member around the world. Yet, it is always important to remind and encourage you to regularly evaluate your wellness status, season to season. Then you can optimize your VIVA supplement regimen to ensure that you are giving every living cell in your body the nutritional support needed to do their jobs well every day.

**I**nvesting in a health plan for medical care is an advance consideration for monitoring health and treating disease, whether you need it right away or not. Investing in nutritional health care is your ongoing, continually proactive consideration for maintaining the cellular life factors that promote high health, energy and longevity, which you will always want right now! It cannot be said more confidently that the capability and value of your VIVA Life Science products to support your excellence in health, and, subsequently, your plan for success, is truly beyond fantastic! Besides that, VIVA helps you make wise choices for your plan with special product promotions and incentives. So...get excited and get going! Make your wellness and success breakthroughs this second quarter of your fabulously healthy year – the VIVA Way!

# VIVA Power to Perform

## VIVA Shield® OxyPower™ VIVA Ginkgo Biloba™ and LiQuick™ Ginkgo

Energize – Breathe Easy – Enhance Cell Function

***Live long and be healthy...*** a desire that needs nutritional assistance to become reality. External factors such as lifestyle habits and exercise are very important for determining the rate of aging and its effects. However, without maintaining internal factors such as diet and adequate nutrition, the possibility of living an optimum life quickly erodes to one of declining health and limited capabilities.

*Make sure you provide the power-building nutrition for your body's cells, tissues and organs to perform for a lifetime and support your anti-aging, longevity goals with these VIVA products:*

### **VIVA Shield®**

- VIVA's flagship nutraceutical for high-efficiency antioxidant vitamins A, C, E and essential non-toxic Selenium yeast for superior free radical damage control and protection of every cell in your body.

### **OxyPower™**

- Scientifically designed with antioxidants, vitamin K, Riboflavin, D3, coenzyme Q10, Germanium Sesquioxide, and Omega-9 fatty acid Oleic Acid to inhibit oxidative stress, support cellular respiration processes, and promote enhanced energy release.

### **VIVA Ginkgo Biloba™ and LiQuick™ Ginkgo**

- Specific nutritional factors from flavonoids, bioflavonoids, ginkgolides, terpene galactones, flavone glycosides and proanthocyanadins stimulate circulation and activate energy producing processes and the brain's neurotransmitter systems.

**Get powered up...Naturally!**

**Get Your VIVA Shield™ OxyPower™  
VIVA Ginkgo Biloba™ and LiQuick™ Ginkgo Today!**

# Is your blood glucose normal and healthy?

***It should be!** Your blood is your life and healthy glucose levels are critical for survival! And, just as important, maintaining healthy insulin levels and response is vital for blood sugar balance. **Eating healthy, exercising and taking the right nutraceutical support** helps your body maintain its ability to produce appropriate insulin and blood glucose factors, and protect your cells.*

VIVA's **GlucoGuard™** is scientifically-designed to provide a powerful team of nutrients that work to help your body maintain healthy blood sugar metabolism.

## **Antioxidant Vitamins A, C, and E**

- Fight free-radical damage to protect red blood cells, capillaries and delicate mitochondria DNA, as well as the myelin sheaths around peripheral nerves for proper muscle stimulation.

## **Biotin**

- Activates the glucokinase enzyme necessary for functions related to blood sugar metabolism, helps release of insulin, stimulates the expression of genes important to maintaining glycemic control, enhances activity of chromium yeast and helps regulate carbohydrate metabolism.

## **Pantothenic Acid (Vitamin B5)**

- Essential for normal metabolism and helping the body convert food energy into blood sugar and support the formation of healthy red blood cells.

## **Magnesium and Manganese**

- Triggers the activity of hundreds of enzymes and maintains electrochemical balance necessary for neurons and muscles to work properly.

## **Chromium Yeast**

- Helps re-sensitize and enhance the function of insulin receptors in the cells, which helps insulin do its job of keeping blood sugar levels within the healthy range.

## **Inositol (Vitamin B8)**

- A psuedovitamin necessary for proper insulin receptivity and utilization.

## **L-Taurine**

- An amino acid that helps maintain hydration and electrolyte balance, and helps regulate action of minerals such as magnesium and manganese.

## **Vanadium**

- Helps promote the movement of glucose into the cells.

## **Young barley powder and spinach powder**

- Supplies green food nutrients of chlorophyll and enzymes to support healthy blood cells, digestion, metabolism and alkalization.

**Maintain Your Healthy Blood Sugar Balance and Live Well!
